

## LOGIC Image

### The Colour Presentation Paper

Make an impact with vibrant colours and graphics on your most important communications. The smooth, white finish will give a professional and quality feel to high profile jobs while delivering great colour coverage on inkjet or laser equipment.

#### What can you use it for?

- Presentations with colour images
- Corporate stationery
- External documents

THE ADVANTAGES	
Benefits	What it means
<b>Outstanding print quality</b>	Superior smoothness ensures excellent print quality.
<b>ColorLok Technology</b>	Gives even better print results with bolder blacks and brighter colours.
<b>Flexibility</b>	Quality results on colour laser and inkjet technologies. Fewer papers needed in the office.
<b>High whiteness</b>	Excellent contrast makes colours bright and vivid.
<b>Consistent smoothness</b>	Colour is distributed evenly, making graphics clear and sharp even for double-sided printing.
<b>Good bulk and thickness</b>	Adds value and substance to documents. Makes recipient feel important.
<b>Packaging innovations</b>	Improves efficiency and makes office life easier.
<b>ISO 9706</b>	Ensures documents maintain good condition for more than 100 years.
<b>FSC certification</b>	Made using wood from well managed, FSC certified forests for environmental peace of mind.

#### What is LOGIC Image guaranteed for?

- Colour laser and inkjet printers
- Colour laser and inkjet copiers
- Digital printers
